

Wildland Fire Management Information (WFMI) Weather - Lesson 1: Access

Do I have access to WFMI weather?

To request access to WFMI Weather module, the access form is at this link:

<https://www.nifc.blm.gov/cgi/WfmiHome.cgi>

- select Access Request link
- read General Rules and Guidelines Governing the Use of Bureau of Land Management Computer Systems
- select WFMI Weather-Maintenance User Access Request Form

If requesting view access only, complete section I, sign section II and fax to number on form.

If requesting edit access to one or more Remote Automated Weather Stations (RAWS), complete section I, II, and III. When filling section III on the form, if you need edit access for only one or a few stations or portables, list them in section III; otherwise, *leave blank* if you need access to all RAWS within your unit.

For federal government, have Regional RAWS Coordinator sign section IV and they will forward to Agency Representative.

State/local government cooperators do not need a signature in section IV unless a Regional (State) coordinator has been designated; fax form to USFS Agency Representative.

Once Agency Representative has signed, edit access will be established.
